# The perfect entry-level model

**CREA-WHEEL 60 Basic** – The cost-effective way to enter professional straightening.

Not every company needs a high-end straightening machine with the maximum range of features. In many cases, all that matters is **straightening flat steel quickly, precisely, and economically** – without hammers, without physical effort, and without unnecessary investment.

With the CREA-WHEEL 60 Basic, CREAMETAL AG offers an **affordable entry-level solution** for metal fabrication and locksmith workshops looking to **increase productivity** while improving the quality of their work. This compact straightening machine has been specifically developed for the daily demands of workshop and production environments. It enables efficient straightening of flat steel without requiring any training.

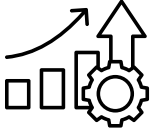

# Key Benefits at a Glance

One single adjustment wheel

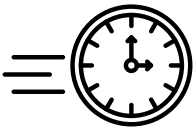

Excellent price-performance ratio

Increases productivity
